Rain RainGo Away!

Hello all, sorry for the delay... with my son selling and buying a house this summer sure got away from me! (Sad to say my daily driver Boat only got wet from the top!)

Well we had our first boat show at the new venue in Downtown Buffalo! Our response from the usual show exhibitors was quite low, we called it FODT... "Fear of Downtown"! The Friday set up went well and the weather held for the 3-9 start. Then came the "big day"of RAIN! So like many sports teams have coined the phrase.... "Wait til next year". As part of the Buffalo Maritime Festival all were disappointed. We tried our best, even when it subsided for an hour; the covers came off the boats and the t-shirts out of the trailer. We expected 200 classic cars on Saturday, four hearty souls showed up! As a member of the club , we all worked hard with great anticipation but "you can't fool Mother Nature"! Here a few pictures;

That's First Niagara Arena where the Buffalo Sabres play in the background.

If only Saturday was like Friday.....

I've attached a file of the Florida (usually good weather!) Boat show at Tavares that Rick and Valerie Pressley attended as proud new owners of Bruce Danielsons' Boat! Great Job!!
